SUMMARY

Motivated and detail-oriented Full-Stack Developer with hands-on experience in building and managing web applications using modern technologies such as React, Node.js, Express.js, and MongoDB. Currently pursuing a Bachelor of Information Technology degree, developing a solid foundation in software development, database management, and system design. Adept at working collaboratively on team projects and creating efficient, user-friendly solutions. Passionate about leveraging technology to solve real-world problems and continually expanding my technical skillset.

WORK EXPERIENCE

Full-Stack Web Development [MERN]

May 2024 - Nov 2024

Uki, Jaffna [Associated with Yarl IT Hub

- Completed coursework in Structural Design and Project Management, with hands-on experience in developing web applications using MongoDB, Express.js, React, and Node.js.
-

PROJECTS

Shop Management System [MERN]

'Shenthu MART' – Inspired by my name, this brand represents a modernized approach to shop management. In my exploration of existing shop management solutions, I found that many systems handle basic inventory and sales management well but overlook features that could enhance staff and customer engagement. Most lack integrated task management for staff and personalized customer interactions like birthday greetings, limiting operational efficiency and customer loyalty. These gaps reduce team coordination and may miss key opportunities for customer connection and satisfaction.

- Unique Features: Automated Birthday Wishes, Task Manager, QR-Based Billing System, Product Management, Staff Management, Attendance Management, Staff Photo Uploads, Recipe Page, Blog Page, Stock Notifications, User & Admin Dashboards, Wishlist & Cart, Product Search, User Dashboard Promotions
- Future Enhancements: Customer Preferences Monitoring, Refrigeration Monitoring Device Integration, Staff Face Recognition, Gender-Based Birthday Themes.

Personal Portfolio

A personal portfolio showcases your skills, projects, and achievements to potential employers, clients, or collaborators. It acts as your digital resume, emphasizing creativity and professionalism.

Key Features: Responsive Design, Hero Section, About Me Section, Projects Section, Skills Section, Contact Section, Toggleable dark/light mode, Responsive hamburger menu for navigation on smaller screens,
